Leadership Statement

Partnership for Community Action, Inc. recognizes that the COVID-19 Health Crisis has created a significant negative impact on so many families and businesses. Throughout the pandemic, our organization has continued to serve the communities of the most vulnerable populations in an effort to reduce as much of this impact as possible and serve as a guiding light to those in need. While financial assistance is sometimes all that is needed, our team poured their hearts into the families of others to ensure that each household was met with care. For that, we are thankful for the dedication of PCA's team to fulfill our mission and embody the purpose of Community Action!

With Gratitude,

Lizia Auger & Brittany Eubanks
**Mission**

To empower and advocate for individuals and families in DeKalb, Gwinnett, Rockdale, and Newton Counties to attain self-sufficiency and an improved quality of life through case management, crisis intervention, and youth development in partnership with the community.

**Vision**

We envision strong and stable communities where individuals are healthy and have an opportunity to reach their full potential.

Total Outcomes Achieved:
CSBG: 3,135
LIHEAP: 33,043
Ms. Harrison is a senior that is raising her two grandchildren alone. When she contacted PCA, she was desperate to find new housing. The neighborhood had become increasingly unsafe for her and her grandchildren, the home was infested with mold and mildew, and the landlord refused to remediate. PCA assisted Ms. Harrison with first month’s rent, security deposit, and utility establishment after finally locating a home in a safer, more affordable area.

"I feel safer now! Thank you to PCA for helping my family to relocate so my family can continue to thrive in a better environment!"

As a direct result of the COVID-19 pandemic, Ms. Garcia's hours were drastically reduced. This cause financial strain in her household. As a single mother, she had always worked hard to provide for her family independently. This hardship caused her to fall behind on several household bills. PCA was able to help with rent and utilities in order to stabilize her household. Soon after, Ms. Garcia received news that the vaccine was available, and she was allowed to work full-time again!

"With the agency's contribution, I know that I can rest easy now, knowing that I don't have past due bills hanging over my head anymore."

After being evicted from her home after the end of the moratorium, Ms. Wilson and her two small children were homeless. She was referred to PCA for placement in temporary lodging. During this time, Ms. Wilson worked with a case worker to identify permanent housing. Upon being approved for a new apartment, PCA provided first month’s rent and security deposit and advocated for a sustainable partnership with the landlord to move in quickly!

"PCA was the only agency willing to help me in such a dire time. I'm very thankful for PCA. They were there when we needed them the most!"

Mr. Wren came to PCA for assistance with rental costs after his health condition caused him to lose his employment, and family and friends abandoned him to fend for himself. PCA's case worker advocated on behalf of Mr. Wren to assist with past due rent to remain in his home. He identified a work-from-home opportunity with paid training and a livable wage upon completion of training, which was suitable for his health needs.

"I have never been in this kind of situation and am appreciative of the assistance and the care shown on my behalf from initial phone call to end result."
